Career Objective

Motivated and detail-oriented Electronics and Communication Engineering student. To start my career in a reputed organization where I can use my knowledge of electronics and communication engineering to contribute to projects, learn new skills, and grow professionally.

Education

B-Tech – Electronics and Communication Engineering
Christu Jyothi Institute of Technology and Science, Jangaon

Technical Skills

- Programming: C, Java (basics)

Projects

Mini project-Smart floor cleaning robot by using IOT • A
smart floor cleaning robot cleans the floor automatically.

- Users can set a time schedule for cleaning.

Real time project-Laser light security alarm system

- I implemented the circuit using basic electronic components like resistors, transistors, buzzer, and laser diode.

Achievements & Activities

- Completed workshops and training in Java Programming.

Soft Skills

- Strong Communication & Teamwork
- Innovation and Leadership
- Problem-Solving & Analytical Thinking
- Time Management & Adaptability
